

# The Sanmar Group

Where Integrity Meets Excellence

The Sanmar Group is a global conglomerate headquartered in Chennai, India with manufacturing and distribution facilities in the USA, Mexico, Egypt and at several locations across India. The Group is engaged in four key business sectors – Chemicals, Engineering, Metals and Shipping.

The Sanmar Group consists of a set of diversified manufacturing companies housed under two independent ownership structures, but operating under a common identity.

## **Management Philosophy**

Sanmar's policies and processes are simple, logical and transparent. Its management philosophy has stood the test of time through generations of managers, and drives the management processes every step of the way.

## **Corporate Governance**

Sanmar has set high standards in corporate governance based on its ethical principles, which allow no exceptions or deviations from policy.

## **Nurturing Human Talent**

Sanmar's human resource management policy is based on respect for individuals, fairness and uniformity in dealing with its people and providing them with an environment for growth and excellence.

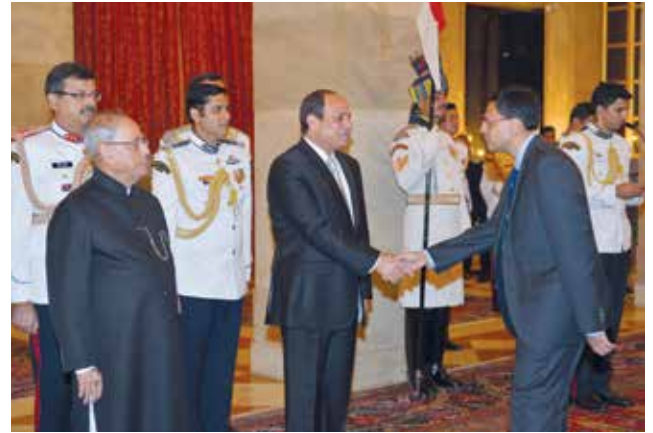

The Group employs a diverse and competent workforce. A conducive and invigorating work atmosphere provides employees opportunities for growth and excellence.

A strong sense of values is reinforced in each of its people processes. Employees are encouraged to strive for the zenith on a firm foundation of ethics, integrity and performance management.

# Group

## A Preferred Partner

The Sanmar Group has come a long way since its first international joint venture, back in the 1960s. Since then, the Group has set the benchmark for global partnerships in a range of industry segments.

These partnerships are based on trust, transparency and respect for intellectual property rights.

Sanmar forges lasting relationships with collaborators, customers, suppliers, employees, shareholders, financial partners, government and other stakeholders.

Each of them is an equal partner in Sanmar's journey towards excellence. With over five decades of experience in managing international partnerships, the Group has an impeccable record with joint ventures.

## Professional, Integrated, Multinational

Professionally managed, the Group has clearly segregated ownership and management. Strategic forward and backward integration—combined with prudent financial management—has been responsible for the Group's steady progress and the leading position it occupies in the different industry segments in which it is present. In recent years, it has made major investments across the globe in its different businesses.

### Love for sports

Sanmar has been a generous patron of sports and one of the few Indian corporate houses to offer sustained patronage. Domestic cricket and tennis have benefitted from Sanmar's patronage for over five decades. Chemplast Sanmar sponsors the Jolly Rovers and the Alwarpet Cricket Clubs in the Tamil Nadu Cricket Association (TNCA) league. The Group has also been supporting the Interclub City Tennis League of the Tamil Nadu Tennis Association (TNTA) since 1992.

### Sustainability Initiatives

Environment management and sustainability initiatives are treated as integral to Sanmar's businesses. Chemplast is one of the few companies in the Chemical Sector to have published an audited sustainability Report on a regular basis for the last 14 years. Chemplast Sanmar Limited, Chemplast Cuddalore Vinyls Limited, Custom Manufactured Chemicals division of Chemplast Sanmar Limited and Cabot Sanmar Limited have all been granted the "Responsible Care" logo by the ICC.
