

Over five decades old, Chemplast Sanmar Limited is a major manufacturer of Specialty Paste PVC resin. The company also produces Caustic Soda, Chlorinated Solvents, Hydrogen Peroxide and Industrial Salt. Its Custom Manufactured Chemicals Divn. manufactures starting materials and intermediates catering to global innovator companies in the Agrochemical, Pharmaceutical and Fine Chemical space. The manufacturing facilities are located at Mettur, Berigai and Vedaranyam in Tamil Nadu and Karaikal in Puducherry.

Chemplast Sanmar pioneered the manufacture of Speciality Paste PVC in India. It is today the country's largest manufacturer of Speciality Paste PVC resin.

The Specialty Paste PVC resin operations of Chemplast began in May 1967 at Mettur, near Salem in Tamil Nadu, to manufacture a variety of high-quality resin having a wide range of end-user applications.

To achieve self-sufficiency in feedstock, the company completed a strategic acquisition of a chlor-alkali plant at Karaikal in August 2003 and ramped up the plant capacity. This plant includes a Marine Terminal facility for the import of liquid ethylene.

The Chlorochemicals division of Chemplast manufactures a wide range of products using a highly integrated manufacturing process.

The Salt needed for chlorine manufacture is supplied by Chemplast's Salt Pans at Vedaranyam.

Chemplast's power plant significantly serves the power-intensive electrolysis process of manufacturing chlorine.

Chemplast has played a pioneering role in the field through its ingenious choice of feedstock, manufacturing processes, and efficient, eco-friendly practices. In addition, its constant development of environment-friendly production processes have reduced the consumption of valuable natural resources.

Custom Manufactured Chemicals Divn., Chemplast Sanmar Limited

The Custom Manufactured Chemicals Division (CMC Division) of Chemplast Sanmar Limited is involved in manufacturing advanced intermediates for global agrochemical, pharmaceutical and fine chemical end-use. In addition, CMC markets and sells unique chemistry and process capabilities. With a manufacturing facility located at Berigai, Tamil Nadu, CMC has multiple production blocks to handle a wide range of chemistries - Cyanation, Hydrogenation, Diazotization, and Mercaptans. CMC is well known for its Environmental and Safety stewardship. Significant expertise is available within the Chemplast ecosystem in processing and handling complex chemicals such as Chlorine, Ethylene di chloride, Fluorine, Peroxides, Chlorosilanes and Sodium Cyanide, to name a few.

In short, CMC offers a world-class research and development capability combined with a broad range of chemical technologies at a production scale.

Chemplast Sanmar Limited

Registered Office: 9, Cathedral Road, Chennai - 600 086, Tamil Nadu, India.
Tel.: + 91 44 2812 8500 E-Mail : csl@sanmargroup.com

Mettur Plant: Raman Nagar PO, Mettur Dam - 636 403, Tamil Nadu, India.
Tel. : + 91 4298 231 980 E-mail : csl@sanmargroup.com

Karaikal Plant: Melavanjore Village, T.R.Pattinam Panchayat, Nagore - 611 002, Puducherry, India.
Tel. : + 91 4365 256 475 E-mail : csl@sanmargroup.com

Vedaranyam Salt Works: Sethu Rastha, Vedaranyam - 614 810, Tamil Nadu, India.
Tel. : + 91 4369 250 228 E-mail : csl@sanmargroup.com
