Sanmar's Constituents

The Sanmar Group embarked on a quest for excellence back in the early seventies. The Group had its beginnings in 1972 in a single business operation. It is now a multinational US \$ 1 billion conglomerate headquartered in Chennai, India and has manufacturing facilities in India, Mexico and Egypt. The Sanmar Group consists of a set of diversified manufacturing companies housed under two independent ownership structures, but operating under a common identity.

- SHL Chemicals Group - owned by Sanmar Holdings Limited
- Engineering and Shipping businesses and JVs - owned by Sanmar Consolidations Limited

Strategic forward and backward integration, combined with prudent financial management, has been responsible for the Group's steady progress and the leading position it occupies in different segments. The Group has set the benchmark for global partnerships, the oldest over 40 years, in a range of industry segments which have stood the test of time. In its journey of excellence, Stakeholder prosperity, Integrity and Professional excellence have been the pillars on which Sanmar rests.
