

Chemplast PVC plant to go fully operational soon

Corporate Bureau / CHENNAI, January 3, 2012

Chemplast Sanmar's PVC Plant at Cuddalore did not suffer any major damage in the recent cyclone.

The plant had been designed to withstand strong winds during cyclones, the company said in a press release.

None of the critical production equipment had been affected and the plant was expected to be fully operational soon, the release added.

The plant was fully insured, it added.
